

Call for Submissions:
Recovery Stories needed for the Debtors Anonymous
“Voices of Recovery: Debtors with Health Issues”
pamphlet

The GSB Literature Services Committee invites members with health issues or challenges to submit short D.A. recovery stories for possible inclusion in the ***“Voices of Recovery: Debtors with Health Issues”*** pamphlet.

Any D.A. member who has or had physical, mental, or emotional health issues or challenges, whether short-term or long-term, is welcome to submit their recovery story. Submissions should be approximately 1000 words and may be edited.

While sharing your story, you may want to address some of the following points:

- Have your health issues affected your compulsive debting? Have they affected your ability to work the DA program?
- What aspects of the D.A. program have been especially helpful to you as a D.A. member with health issues? What aspects have been especially challenging?

Our hope is that the recovery stories will reflect a variety and range of physical, mental, and emotional health challenges and recovery experiences in Debtors Anonymous.

- Submitters will need to identify as “compulsive debtors” or “debtors” to be consistent with D.A.’s primary purpose, which is to “not incur unsecured debt.”
- Members are welcome to identify and highlight symptoms of debting in their personal stories (underearning and compulsive spending, for example).

Please send submissions by **May 1, 2022**, in an editable **MS Word format only**, with a signed and dated Assignment of Rights release form (available on the D.A. website) by **email only** to:

healthissuesvoicespamphlet@debtorsanonymous.org

Please include your full name, mailing, and email addresses.
All personal information will be kept confidential.

Please share this information with other members and at meetings.
